Welcome to the Aberdeen Proving Ground 2020 Installation Guide. First things first, hang on to this guide throughout the year, because you'll find connections to all the information you need to make the most of your time at APG, whether you're a Soldier looking for fitness center hours, civilian scoping your next lunch spot or retiree stoking recreation activities.

For more than a century, APG has evolved as the Army’s “Home of Innovation” because of its people. From scientists and engineers, to logisticians and environmental managers, to military spouses and family members, the 28,000 patriots who work and live at APG are driving our ability to win the information age.

As the Army returned its focus to great power competition, that work at APG is driving our ability to train, fight and win. The 28,000 people at APG are adapting and innovating to achieve the Army’s highest priorities: readiness, reform and modernization. Remember that you also play a critical part in empowering our Soldiers and defending our freedom. We can’t wait to work with you in 2020. Winning Matters! Army Strong!
