The U.S. Army Aberdeen Test Center (ATC), a Department of Defense (DOD) Major Range and Test Facility Base, is the DOD test site for automotive, Soldiers' systems, transportability, survivability and lethality testing and supports test and evaluation requirements on 66,000 acres. ATC specializes in testing automotive, live-fire, direct fire, engineering equipment, solid systems and unarmored ground vehicles. The ATC workforce provides technical expertise in instrumentation applications, facility operations, manufacturing and fabrication, exploits emerging technologies, and helps develop, develop, and report test status and test methodologies. For more information, call 410-278-3300 or visit the ATC website at www.atc.army.mil.

U.S. Army Joint Test Element (JTE)

U.S. Army Test and Evaluation Command

The U.S. Army Joint Test and Evaluation Program provides guidance and resources for near-term solutions to joint, service, agency, or combatant command challenges. Solutions are tested and evaluated via two options: a rapid reaction test for issues that can be solved in less than one year and a joint test for complex issues that can take years of effort. The resulting product of joint tests is quick reaction tests and handbooks, concepts of operations, tactics, techniques, and procedures, revisions to doctrine publications, and training inputs to joint forces and service schools.

For additional information about the U.S. Army Joint Test Element, call 410-436-6967 or visit the JTE website at https://www.atec.army.mil/jte.

Program Executive Office - Ground Combat Systems (PEO-GCS) APG Field Office

The PEO-GCS APG Field Office for the Program Executive Office – Ground Combat Systems provides on-site liaison to support numerous Project Management PMs offices that are under the PEO GCS command for the research, development, test and evaluation of their products and platforms. PM offices are located throughout the country; so these liaisons provide a vital link to the test site at APG. The field office supports test planning, coordination, monitoring and reporting test status and developments to the PMs and facilitates near-term solutions to problems identified by the PM’s decision makers, enabling PMs to assess emerging test results and take necessary action. For more information about PM ACC-APG, call 410-747-3852 or visit http://www.peosgs.army.mil.

Army & Air Force Exchange Service (AAFES)

AAFES provides quality merchandise and services to customers at competitively low prices and generates earnings which provide a dividend to support Morale, Welfare, and Recreation (MWR) programs. APG, AAFES manages the Exchange, Express (Shoppette) locations on APG North (Aberdeen) and APG South (Edge- wood) Burger King, multiple Subway (Aberdeen) and APG South (Edge- wood) Express locations, Tim Hortons and others. For more information, visit shopmyexchange.com.

Army Contracting Command (ACC-APG)

The Army’s business conduit, the Army Contracting Command provides contracting support to enable mission requirements as the Army conducts operations throughout the world. Military, civilian and contractor personnel within ACC-APG support Soldiers worldwide by acquiring equipment, supplies and services vital to mission success in support of Army readiness, modernization, and lethality. ACC-APG manages approximately $95 billion in military and civilian employee 14 divisions dispersed across nine locations. These employees oversee the fiscal accountability of approximately $30,000 in contracting actions each year valued at over $13 billion. The contracts are executed by ACC-APG personnel, ensuring Soldiers have the resources they need to be successful in theater and on installations. For more information, visit http://www.acc.army.mil/contractingcenters/acc-apg/.
